### AmericasRelief Team's Emergency Center Report

**The AmericasRelief Team's Emergency Center has been activated; the Center is staffed to help coordinate the shipping of relief aid to victims of the event.**

---

## WHAT IS ART DOING TO HELP YOU?

The short answer is that **AmericasRelief Team** helps NGOs find transportation for their humanitarian aid!

## HOW DO WE WORK?

**AmericasRelief Team** works together in a coordinated basis with the governments of the Caribbean country, the U.S. government, donating corporations, air & sea cargo carriers, logistics companies, non-governmental experts and others to assess damage when disaster strikes, and then effectively channel strategic emergency relief to the most affected areas.

**AmericasRelief Team's** main role at times of disaster is to facilitate the transport of needed commodities to affected areas. We work hard to obtain free or discounted cargo space from our partners, and offer it to the NGO community with donations needed on the ground. Following the FedEx flight, and within a few days after the crisis **AmericasRelief Team** facilitated cargo space for ADRA, American Red Cross, Food for the Poor, Cross International, International Relief and Development (IRD) World Vision, and others through air cargo partners FedEx, Arrow Air Cargo and LAN Chile.

An example of an **AmericasRelief's** member corporation taking independent action to help alleviate the relief distribution problems is FedEx Latin America. In an exemplary effort, FedEx chartered an available

DC10 and loaded it with first response relief supplies staged in Miami from **AmericasRelief** Team's member non-profit organizations' Heart to Heart, American Red Cross and Pan American Development Foundation (PADF). The flight became the first organized humanitarian relief assistance to arrive in Haiti. The donation cost FedEx more than \$100,000 but it opened the door to hundreds of other relief flights and thousands of pounds of much needed relief supplies.

**AmericasRelief** has created a reception and distribution strategy for each country in the region to coordinate the efforts of a large number of aid agencies that will likely want to participate in the humanitarian response to help reduce the overlapping sectional and geographic jurisdiction, and help programmatic conflicts among agencies. Additionally, it collects information from the U.S. Southern Command, with whom we hold a Memorandum of Understanding, UN agencies operating in the region, and others to form a coordination unit to help deal with the crisis as a single humanitarian voice. Corporations help the organization develop the capacity to provide quick response to natural disasters; including the development of shipping & distribution protocols for non-perishable and medical relief supplies, and provide assistance in identifying available and often donated relief cargo space available from air and ocean cargo carriers operating in the region.

---

## **Commercial Air Announcement**

AmeriJet and American Airlines have reported that they will restore commercial air services to Port Au Prince, Haiti on Thursday February 18, 2010.

## **Staging Warehousing in Miami to NGOs**

**AmericasRelief** Team has available at no cost to NGOs a staging warehouse for cargo prepared to ship within 5 days to your own organization working on the ground. For more information contact Wesley Kirton at (305) 321-0033. We can receive all types of cargo except hazardous shipments.

## **Logistics Services and Space Available**

Contact AmericasRelief Team's Logistics Coordinator Mr. Eric Williams at (305) 987-2030 or via e-mail at [Eric@americasrelief.org](mailto:Eric@americasrelief.org).
