ART'S EMERGENCY CENTER REPORT

The *AmericasRelief Team's* emergency center has not been activated; the center is staffed to help coordinate the shipping of relief aid to victims of the event. However, we anticipate that air relief flights, ocean relief space and co-loading opportunities will develop. We will notify our colleagues, friends and partners of space-available opportunities as this emergency develops.

TROPICAL STORM TOMAS

Tropical Storm to strengthen and head towards Haiti!

Tomas moved over the Caribbean Sea after leaving heavy rain and wind on St. Vincent. More than 1,000 people entered shelters on St. Vincent as Tomas struck the island, an emergency official said. Two people were injured, including one critically, when they tried to repair roof damage during the storm.

Tomas is forecast to continue heading west over the next day or two. The hurricane center said it could gain strength again by late Tuesday. A projection map shows the storm turning north later this week. Tomas could approach Haiti on Friday, possibly as a hurricane.

AmericasRelief Team is monitoring this storm very closely, whereas the potential impact it could have on those recovering from this year's earthquake in Haiti could be disastrous. To find out how you can help, please contact ART or visit our [website](#).

FREE PREPOSITIONING & STAGING WAREHOUSE

While we hope that this hurricane season will prove to be less active than predicted, we all know that natural disasters will inevitably strike—suddenly and horrifically—somewhere in the region. Therefore **AmericasRelief Team** and corporate partner LAPARKAN, have arranged for the use of a prepositioning and staging warehouse at no cost to NGOs. Visit our [website](#) for details.
